Thematic Action Track 3: Teachers, teaching and the teaching profession

Discussion paper

Thematic Action Tracks are key levers to transform education by focusing on five areas that need attention. The Action Tracks seek to mobilize new commitments, by highlighting policy interventions that work, and leveraging existing initiatives and partnerships, including those that emerged in response to the COVID-19 pandemic.

The discussion papers were prepared by the Co-Leads of the Thematic Action Track with the support of UN Support Teams and in consultation with countries and partners. Read the discussion paper on teachers, teaching and the teaching profession.

Key Issues/Strands

- Teacher shortages
- Initial and continuous professional development – pedagogies
- Professional status and working conditions
- Educational leadership, innovation

**Thematic Action Track Co-Leads**

- Nigeria
- Romania
- International Task Force on Teachers for Education 2030

**UN Support Team**

- ILO (anchor), UNESCO (alternate), UNICEF, UNHCR, World Bank, UNRWA
