How would you transform education? Share your ideas!

Calling all youth from around the world! You are invited to share your innovative and inspirational ideas on what you have done or would do to transform education. What do we mean by transform? We mean change, innovate, reconstruct, reimagine…

Youth have important ideas to contribute on transforming education, and the Transforming Education Summit wants to hear them! Send in your 30-second video testimonies focusing on one of these 5 themes:

1. Inclusive, equitable, safe and healthy schools
2. Teachers, teaching and the teaching profession
3. Learning and skills for life, work and sustainable development
4. Digital learning and transformation
5. Financing of education
Selected videos (maximum of 30 seconds) will be published on the Transforming Education Summit’s website and disseminated on the Summit’s social media channels. Please record in English, French or Spanish.

There are two submission deadlines:
- To have your video considered for display at the Pre-Summit, please submit by: 22 June 2022
- Otherwise – send in your innovative and creative ideas by 30 July 2022

**Guidelines for your testimony**

1. **Start by presenting yourself:** “Hello, my name is *first name*, I am … year old, I live in *country*”

2. **Share your idea and/or innovation** on how you would transform education focusing on one of these topics:
   - Inclusive, equitable, safe and healthy schools
   - Teachers, teaching and the teaching profession
   - Learning and skills for life, work and sustainable development
   - Digital learning and transformation
   - Financing of education

Here are some questions that can help to guide your submission:
- What does transforming education look like?
- What innovations can make education inclusive, safe and healthy for everyone?
- How should teaching change to make it more transformative?
- How and what can we teach to encourage sustainability?
- What new skills can be taught to prepare young people for work and life?
- How can digital learning make learning exciting and meaningful?
- What different, creative and sustainable ideas for funding can make education more accessible for everyone?
- What do you like about the education you have had and what needs to change about schools?

**Recommendations before recording**

We will carefully watch all the videos that will be submitted. Our selection will be based on:
- the **content** of the statements
- the **technical quality** of the recording
- the **geographical distribution** of the participants

Kindly note that we might edit your video to give a coherence to the collection of testimonies and/or add some information on it (first names, for instance).
Before recording, please consider the following recommendations:

1. Always **watch at the camera lens**, speak as naturally as possible, be the only one on the image.
2. **Speak slowly, breathe** between sentences, and do not hesitate to pause.
3. You can use your **smartphone** to film yourself or ask a friend or a colleague to film you with a quality-recording **device, if available**.
4. Find a **well-lit place**, making sure you are not in backlight.
5. **Test the sound** before recording the whole testimony: film for a few seconds and listen to the video with headphones to make sure the sound is clear and distinct. If it is not, get closer to the person recording (or bring your phone closer). Make sure there are no noises around you nor other people speaking at the same time.
6. Film yourself vertically (**portrait mode**); make sure to always be in the center of the frame.
7. Make sure your video is **no longer than thirty seconds**.

**Legal considerations**

We need consent to use your video on our website and social media channels. Please fill in and sign the correct consent form for your age (available in English, French and Spanish on the [website](#)), and send it together with your video to tespublicengagement@unesco.org.

Please put as a subject of the email - *name from country TransformED* (example: Kai from Kenya TransformED) and submit it **by 22 June 2022** (for pre-summit consideration).

Do not hesitate to contact us if you have any questions.

We look forward to receiving your videos!
